ANU KAUR, PharmD, RPh

PBM Product Operations & Clinical Strategy | Healthcare AI Governance | Cross-Functional Leadership
California, USA • Pharmacist.IT@gmail.com • (469) 333-0022 • linkedin.com/in/anudeepkaur

PROFESSIONAL SUMMARY

Pharmacist and PBM technology consultant with 15+ years across clinical pharmacy, managed care, and healthcare IT, including 7 years working on pharmacy benefit systems. Bridges clinical requirements and engineering delivery across the product development lifecycle, translating coverage criteria, formulary rules, and NCPDP standards into requirements, solution designs, and test strategies so claims adjudicate correctly at go-live. Most recently served as clinical consultant at Conduent for state Medicaid PBM programs, advising IT leadership on product roadmap, AI-supported initiatives, and RFP responses. Combines cross-functional product leadership with direct pharmacy operations management. Member of URAC's inaugural Health Care AI Accreditation Advisory Committee and an NCPDP speaker on responsible AI in prior authorization.

KEY ACCOMPLISHMENTS

- Delivered three PBM implementations over 24 months with multi-disciplinary teams; system uptime and integration response exceeded client SLAs by 15%.
- Clinical subject matter expert for NCPDP standards adoption across PBM platforms, including the Telecommunication D.0 to F6 transition.
- Selected for URAC's inaugural Health Care AI Accreditation Advisory Committee, which is setting accreditation criteria for how payers and PBMs use AI.
- Presented an ACPE-accredited CE session at the NCPDP 2026 Annual Conference on automating prior authorization with clear decision logic, audit trails, bias monitoring, and human review of escalated cases.

CORE SKILLS

PBM Product Operations & Delivery: PDLC Strategy • Product Roadmap • Requirements and Solution Design • Implementation Support • RFP and Proposal Support • Process Health Metrics • Vendor Oversight • Agile/Scrum • SIT and UAT Validation

Clinical & Benefit Design: Formulary Management • Prior Authorization Criteria • Prospective and Retrospective DUR • Utilization Management • Clinical Policy • Medication Safety

Standards & Interoperability: NCPDP Telecommunication D.0 and F6 • SCRIPT • ePA • Formulary & Benefit • HL7 FHIR • Da Vinci PAS • RxNorm • SNOMED CT • LOINC

Compliance & Governance: Claims Adjudication Rules • HIPAA • Medicaid FFS • AI Governance (URAC) • Application Lifecycle Management

Platforms & Tools: RxClaim • RxAcloud • MedImpact MedAccess • Medi-Cal Rx • SmartPA • Medi-Span • First Databank • Azure DevOps / TFS • SQL (foundational) • EHR and clinical coding systems

PROFESSIONAL EXPERIENCE

Technology Solutions Management Consultant, PBM | Clinical Pharmacist Oct 2024 – Oct 2026
Conduent, Government Healthcare Solutions (state Medicaid PBM programs) | Remote, US

- Advised IT leadership on PBM roadmap and feature priority, weighing clinical need, client commitments, and regulatory deadlines against delivery capacity.
- Converted NCPDP Telecommunication F6, SCRIPT, ePA, and Formulary & Benefit changes (structure, data elements, and field rules) into business requirements, solution designs, and implementation guidance.
- Reviewed claims processing and prior authorization workflows to identify implementation risk early and turn it into scoped, testable work items.
- Wrote business requirements and use cases for AI-supported initiatives, including escalation paths and human review steps.
- Worked with Technology Solutions Managers and the proposal team to align technical scope, solution approach, and timelines in RFP responses.

Pharmaceutical Services Consultant | Clinical Pharmacist May 2022 – Dec 2024
Conduent | Remote, US

- Wrote and interpreted pharmacy policy, prior authorization criteria, clinical guidelines, provider education materials, and drug evaluations for prospective and retrospective DUR programs.
- Advised client and account management teams on utilization management strategy, clinical requirements, and pharmacy market trends.
- Led system demonstrations and clinical validation during SIT; trained client staff on PA automation and claims adjudication workflows.

- Worked with data management, development, and IT teams to resolve pharmacy data issues using Medi-Span and First Databank; shaped data governance practices.

Clinical Pharmacist Jul 2021 – May 2022

Central California Alliance for Health | Remote, US

- Reviewed pharmacy and medical prior authorization requests, including physician-administered drugs, against clinical criteria and benefit rules.
- Audited PBM vendor policies, procedures, and performance against regulatory requirements and health plan contracts as part of delegation oversight.
- Analyzed pharmacy claims and utilization, with EHR review and clinical coding, to inform benefit decisions and resolve disputed claims.

Clinical Formulary Pharmacist Jul 2019 – Jan 2021

Envolve Pharmacy Solutions | Fresno, CA

- Built and maintained SmartPA automated prior authorization and DUR edits, improving claims adjudication accuracy and formulary enforcement.
- Contributed to SmartPA module design and enhancements across multiple PBM claims platforms.
- Converted formulary changes into configurable system logic and tested it before release.
- Received the 2020 Key Contributor Award for exceeding performance targets on PBM initiatives.

Staff Pharmacist Oct 2017 – Jul 2024

Walmart | Fresno, CA (full-time 2 years; per diem 5 years)

- Supervised pharmacy technicians and pharmacy associates, managing daily workflow assignments, schedule coordination, and performance accountability in a high-volume retail pharmacy.
- Trained and onboarded new pharmacy staff on dispensing procedures, regulatory compliance, inventory management, and patient safety protocols; conducted performance check-ins.
- Verified prescriptions for clinical accuracy and regulatory compliance; provided patient counseling, immunizations, and medication therapy support.
- Optimized inventory controls and utilization tracking to reduce medication waste and improve pharmacy cost efficiency.

Pharmacy Care Coordinator Jun 2010 – Sep 2013

US Bioservices Specialty Pharmacy / AmerisourceBergen | Frisco, TX

- Coordinated specialty therapy access among patients, prescribers, pharmacies, and payers, including copay assistance, foundation funding, free-drug programs, and manufacturer support enrollment.
- Maintained REMS documentation and authorization requirements on schedule; documented adverse drug reactions and completed clinical follow-up.

INDUSTRY COMMITTEES & SPEAKING

- **URAC**, Health Care AI Accreditation Advisory Committee, Advisory Member (April 2025): member of the first working group developing national accreditation standards for AI in healthcare.
- **Speaker, NCPDP 2026 Annual Technology & Business Conference:** "Responsible AI in Prior Authorization: From Policy to Interoperable Decisions" (ACPE-accredited CE).
- **Speaker, NCPDP webinar (July 2026):** "Transitioning to Telecommunication Standard Version F6: Guidance, Impacts and Readiness Considerations," with PBM and vendor panelists.
- **Guest, NCPDPunscripted podcast (May 2026):** "CMS, AI, and the Evolution of Prior Authorization" with host Pooja Babbrah, covering proposed rule CMS-0062-P and ePA workflow changes.
- Participant in NCPDP pharmacy standards and interoperability work groups.

EDUCATION, LICENSURE & CERTIFICATIONS

Doctor of Pharmacy (PharmD), Midwestern University College of Pharmacy, Glendale, AZ, 2017 | Magna Cum Laude • Rho Chi Honor Society
